STRONGMIND℠ K-12

DISCOVER
The StrongMind Difference

StrongMind delivers effective, impactful digital solutions based on 20 years of experience.

‣ Digital technology is used purposefully
‣ Teachers still teach
‣ Students collaborate
‣ Flexible learning promotes thriving students, families, and communities

Provide Virtual and Hybrid Learning for K-12 Students

We offer a range of products and services for schools and districts to tailor a solution that meets their local needs and provides more opportunities for students to learn in the environment that works best for them. Choose an entire solution or just the parts you need.

Engaging digital K-12 curriculum aligned to state standards and developed for synchronous, asynchronous, or a combination of both types of instruction	Social Emotional Learning developed around the CASEL competencies that is personalized, flexible, and can be seamlessly integrated into daily learning	Content delivery to meet your local needs — our LMS or cartridges for your LMS	Instruction from your local teachers, our highly-qualified, certified teachers, or a combination of both

StrongMind also offers a continuum of services to support schools and districts. We can recruit and enroll students within your school or district, expand your reach through community engagement, and provide other support services as needed.
